The Liberal Arts Core is required of all students singly enrolled in the College of Arts and Sciences and of all students dually enrolled in the College and the Newhouse School of Public Communications or School of Education with one exception.

Though the Liberal Arts Core is required of all students dually enrolled as first year students in the College and the Newhouse School of Public Communications, students who transfer to the dual program after their first year as singly enrolled students in the Newhouse School will satisfy general requirements for the dual degree program by completing the Newhouse Core Requirements.
Congratulations! You are the leaders of tomorrow.

Your experiences with the Liberal Arts Core will prepare you to assume your leadership role in society, just as today’s leaders derive their strength from their own liberal arts education.

During your journey through the Liberal Arts Core, you will study subjects that are familiar as well as those that are totally new to you. Collectively, the courses you select will enable you to appreciate the diversity and richness of the peoples, cultures, and natural processes in the world around you. You will also gain critical skills needed to successfully reach your academic, social, and career goals.

Professional counselors in The College’s Office of Advising and Academic Support are here to help you understand the Core and connect your studies in the liberal arts with your major, career opportunities or continued study in graduate and post-baccalaureate professional programs.

I offer my sincere congratulations on the achievements that have brought you into The College of Arts and Sciences and wish you bon voyage on the journey you are about to begin!

THE LIBERAL ARTS CORE

A. LIBERAL ARTS EDUCATION

An education in the liberal arts should do at least two essential things:

· help students to reach a university-level mastery in the most fundamental intellectual skills needed both to explore the world and for effective communication and expression: the use of language and the use of quantitative methods.

· help students to develop broad and integrating perspectives on the world and human experience, perspectives that draw upon the best of scholarship and research from across the fields of liberal learning. This is done by introducing students to a variety of important parts of the universe of learning and helping them to draw upon and become members of the universal community of learners.

B. THE PARTS OF THE CORE

The Liberal Arts Core is a set of principles that guides students in the selection of courses and serves to define the common core of a liberal arts education at Syracuse. It was devised and adopted by the faculty of the College of Arts and Sciences to assure that each student's course of study includes the most important features of an education in the liberal arts. There are three fundamental parts to the Liberal Arts Core:

I. The Liberal Skills Requirement

II. The Divisional Perspectives Requirement

III. The Critical Reflections on Ethical and Social Issues Requirement

The Liberal Skills Requirement assures that each student further develops the fundamental intellectual skill of effective writing and gives the student a choice of whether to satisfy a competency requirement in quantitative skills or a second language.

The Divisional Perspectives Requirement introduces students to something of the great range of liberal fields of inquiry. A liberal education is essentially an education from a diversity of viewpoints. An education is not "free" if it confines students to one or two viewpoints, one field of study, or focuses narrowly on a single professional objective. The disciplines and interdisciplinary studies that constitute the universe of the liberal arts and sciences both complement and compete with each other in the effort to gain the most informed, balanced, and integrating perspectives on the world and human experience. Students need to get a sense of the range and power of liberal studies, and of the controversies and uncertainties that remain a challenge for these studies. In the course of surveying something of this range, they will also be put in a better position to make an informed choice regarding their majors and minors.

The Critical Reflections on Ethical and Social Issues Requirement is designed to assure that students reflect upon the relevance of the liberal arts and sciences to ethical and social issues. Every liberal field of study has great ethical and social significance. The courses that satisfy this requirement build on that fundamental fact in order to highlight that significance and to develop in students critical and self-critical intellectual habits of thought.
The First Year Forum and the First Year Lecture give students entering the College of Arts and Sciences an innovative, common introduction to the College and to studies in the Liberal Arts.

The First Year Forum, CAS 101, is a one-credit seminar required of all First Year Students who are not in the Honors Program, designed to orient students to the university and to studies in the College of Arts and Sciences. A Forum is led by a regular member of the faculty who has volunteered to lead a seminar of 15 students. Frequently the faculty member is also the student’s academic advisor. Faculty members meet with their Forum once a week for the first 8 to 9 weeks of the semester for discussions that range from important intellectual issues to significant problems of adjustment to the university. The content of each Forum varies from section to section and is determined by each Forum Leader, who may involve the students in some of the choices of topics and activities. There are, however, common elements across the Forum seminars. Forum Leaders take their students to dinner and together they attend some local cultural event -- the symphony, a play, a museum exhibit. Forum sections will attend the First Year Lecture together and incorporate discussion of it in their seminar meetings. Among the major purposes of the Forum is to make sure students get to know a faculty member personally and in some context other than that of an academically specialized course. Another major purpose is to see that faculty members are getting to know first year students in a deeper way than is usually possible in regular courses. All first year students in the College are required to participate in a First Year Forum.

The Milton First Year Lecture was established in the College of Arts and Sciences to provide a unique focal point for the introduction of students to the College. The lectureship brings a nationally prominent speaker to campus early each fall to address the first year students of the College of Arts and Sciences at the beginning of their university studies. The lecture provides an opportunity to bring our students together to highlight the importance of their common undertaking as students in the Liberal Arts and stimulates them to academic achievement. The topic of the First Year Lecture will provide a common intellectual theme for discussion in the Forum seminars -- a theme of particular importance to students and scholars in the Liberal Arts.
DIVERSITY AND THE LIBERAL ARTS CURRICULUM

DIVERSITY is one of the University’s five core values. In a college curriculum a commitment to diversity means a commitment to studies that help students to understand the variety of peoples, social groups and cultures that surround, affect, challenge and enrich them. It also seeks to help each student gain an informed and critical understanding of her or his own social and cultural background by setting it in the context of the backgrounds of others. Liberal education has always promoted the understanding of people of other kinds, times and cultures, but it is only in recent times that the full implications of that ideal have been recognized. Traditionally, a limited selection of social groups and cultures other than those dominant in a society were considered in a liberal course of study, but not a sufficiently rich array was included to allow an adequate, critical understanding of human diversity.

Several departments of the College have explicit missions to provide studies of women, ethnic minorities of the United States, and cultures other than those of Great Britain and Anglo-America. These departments include:

- African American Studies
- Anthropology
- Languages, Literatures and Linguistics (including Arabic, Chinese, French, German, Greek, Hebrew, Hindi, Italian, Japanese, Kiswahili, Korean, Latin, Persian, Polish, Russian, Spanish, Turkish)
- Geography
- History
- Political Science
- Religion
- Sociology
- Women’s and Gender Studies

In addition to these departments, the College of Arts and Sciences is the home of several interdisciplinary programs offering majors or minors that bring specific focus on groups and cultures that expand our understanding of human diversity:

- Asian / Asian American
- Forensic Science
- Global Political Economy
- International Relations
- Judaic Studies
- Latino-Latin American Studies
- Lesbian, Gay, Bisexual, and Transgender Studies
- Middle Eastern Studies
- Native American Studies
- Religion and Society
- South Asian Studies

These departments and programs, along with others, offer over 50 undergraduate courses on US ethnic minorities, over 45 courses on women’s issues and over 200 courses on cultures and societies outside of Great Britain and Anglo-America. We encourage students to take full advantage of this rich diversity within the curriculum.

A special feature of the Liberal Arts Core called the Critical Reflections on Ethical and Social Issues Requirement also directs students to courses in which issues and topics concerning human diversity are studied (see the section on this requirement later in this Guidebook).
If you have received the score required on one of these C.E.E.B. Advanced Placement examinations, you will receive credit for the appropriate Syracuse University course(s) and may apply those credits earned toward completing the Liberal Arts core according to this chart.

*Note: A maximum of 30 semester hours of credit may be accepted from all forms of extra-institutional and experiential learning, and examination programs (including Syracuse University Advanced Credit Examinations).*

If you decide to take the equivalent Syracuse University course for which you have been awarded Advanced Placement or Transfer Credit, the AP or Transfer Credit WILL BE DELETED and you will lose the credit. If you have questions, contact Advising and Academic Support in 329 Hall of Languages.

SPECIAL NOTE FOR TRANSFER STUDENTS

Students who have attended college or a comparable institution before enrolling in Syracuse University, and students who were in an S.U. school or college that did not require the Liberal Arts Core, should make sure that their transcripts are evaluated by their College Dean’s Office and that their previous work is evaluated in the context of the Liberal Arts Core.

The following applies to students in the College of Arts and Sciences and students dually enrolled in the College of Arts and Sciences and in another school or college at Syracuse University. Students in the David B. Falk College of Sport and Human Dynamics and the School of Education should contact their Undergraduate Recorder.

In evaluating a transfer student’s prior credits as they apply toward the Liberal Arts Core requirements, the College will group the transfer student’s records into three categories and handle them as follows:

1. **General Education Requirements Completed Elsewhere**

   Students transferring to Syracuse from other fully accredited liberal arts colleges, or comparable institutions, at which they completed 45 or more credits of liberal arts course work transferable to Syracuse, and at which they satisfied all lower-division requirements (sometimes called core, distribution, or general education requirements); or earned an Associate of Arts (A.A.) or Associate of Science (A.S.) degree shall be required to complete the Liberal Skills and Critical Reflections Requirements of the Liberal Arts Core. Based upon prior course work such students are required to complete at least four courses in one division and two courses in the other two divisions.

2. **General Education Requirements Not Completed Elsewhere**

   Students transferring to the College of Arts and Sciences from another College at the University or from another institution, entering the College with sophomore or higher class standing but not having completed an A.A. or A.S. degree or the lower-division requirements of another fully accredited liberal arts college, shall be required:

   (a) to complete Liberal Skills Requirement;
   (b) to complete, through a combination of transfer credits and College courses approved for the Divisional Requirement, four courses in each of the three divisions, including course work from at least two departments in each division, and two of these courses must constitute an approved sequence
   (c) to complete or to show prior completion of at least one course that offers laboratory, or fieldwork
   (d) to complete the Critical Reflections on Ethical and Social Issues Requirement.

3. **Transfers With Less Than Sophomore Standing**

   Students transferring to the College of Arts and Sciences with less than sophomore standing shall be required to complete all particulars of the Liberal Arts Core, or to demonstrate prior completion of equivalent courses.

   Arts and Science students who have completed courses in the International Baccalaureate Program should contact the Student Records Office, regarding credit toward completing the Liberal Arts Core.

**Note:** Transfer credit is not accepted for Writing Intensive and Critical Reflections requirements except when defined in articulation agreements.
PART I

THE LIBERAL SKILLS REQUIREMENT

Quantitative skill and skill in the use of languages are indispensable elements in liberal and general education. The importance of these skills does not diminish after graduation. They are abilities that are in constant need throughout our lives - for professional success, for effective and informed citizenship, and to enable us to enjoy and to contribute to the cultural and intellectual riches that depend upon them.

To satisfy the Liberal Skills Requirement of the Liberal Arts Core, students are required to achieve proficiency in writing by successfully taking WRT 105, or WRT 109, or CAS 100, or ENL 211 as their first course; and then WRT 205, WRT 209, or ENL 213 as their second course; and a special writing-intensive course prior to taking WRT 205 (or WRT 209, or ENL 213).

The remainder of the requirement gives students the option of demonstrating a university-level competence in either

- a language other than English, or
- the use of quantitative methods to understand and solve problems.
SECTION A

THE WRITING SKILLS REQUIREMENT

Students satisfy the Liberal Skills Requirement in Writing by successfully completing three courses. The first of these courses is chosen from Writing Studio 1: Practices of Academic Writing (WRT 105) or First Year Seminar (CAS 100) or ENL 211 Composition for Non-Native Speakers of English. During the second year, students will take the higher level Writing Studio 2: Critical Research and Writing (WRT 205) or Advanced Academic Writing and Research for Non-Native Speakers of English (ENL 213). Before WRT 205 or ENL 213 is taken, students will take a Writing-Intensive course in a subject matter other than writing — a course that has been specially designed to give attention to developing writing ability while studying another subject matter. The list of approved, Writing-Intensive courses will be found in the next section.

1. WRITING COURSES

CAS 100, WRT 105 and WRT 205 introduce students to the kinds of writing, reading, and critical thinking that are practiced in a university and expected throughout the curriculum. Students write frequently, in varied forms, for varied purposes of inquiry and instruction. Students whose native language is not English satisfy the requirement by completing ENL 211, and 213. Remedial work may be necessary for a student prior to entering ENL 207.

Students will take WRT 105 or CAS 100 in the fall or spring of their first year and WRT 205 in the spring of their sophomore year. WRT 109, CAS 100/HNR, and WRT 209 are intensive versions of the three writing courses for students in the Honors Program. ENL 211 and 213 satisfy the requirement for students whose native language is not English. All alternatives are listed below.

CAS 100 First Year Seminar (3 CREDITS)  Interdisciplinary courses on a designated topic providing an in-depth writing experience supported by an academic context. Covers rhetorical strategies, practices, and conventions of writing in the academy, alongside critical reading and research practices.

WRT 105 Studio 1: Practices of Academic Writing  (3 CREDITS)  Study and practice of writing processes, including critical reading, collaboration, revision, editing, and the use of technologies. Focuses on the aims, strategies, and conventions of academic prose, especially analysis and argumentation.

WRT 205 Studio 2: Critical Research and Writing  (3 CREDITS)  Study and practice of critical, research-based writing, including research methods, presentation genres, source evaluation, audience analysis, and library/online research. Students complete at least one sustained research project.

WRT 109, 209 Studio 1 and 2 (HONORS)  (3 CREDITS EACH)  These courses are honors versions of WRT 105 and 205 for students of demonstrated exceptional ability. WRT 109 is a prerequisite for WRT 209.

ENL 211 Composition for Non-Native Speakers of English  (3 CREDITS)  Expository writing and reading. Students develop an awareness of the cultural and discourse expectations in written English, through reading and responding to articles on a variety of topics and writing essays of increasing complexity.

ENL 213 Advanced Academic Writing and Research for Non-Native Speakers of English  (3 CREDITS)  Development of critical reading and thinking skills used in scholarly research in a variety of disciplines. Students learn to summarize, synthesize, critique, and document, and use library resources effectively.

EXEMPTIONS AND ALTERNATIVES

Advanced Placement. Students who achieve a grade of 4 or 5 on their CEEB Advanced Placement Exam in Literature and Composition may register for WRT 205. Students who achieve a grade of 3 or higher on the CEEB Advanced Placement Exam in Language and Composition are not required to complete WRT 105 or WRT 205.

Project Advance. Students who have completed WRT 105 and English and Textual Studies (ETS) 141 through Syracuse University’s Project Advance have earned 6 credit hours. To complete the LIBERAL SKILLS in Writing requirement, these students should take WRT 205 in their sophomore year.

Transfer Credit. Course work completed at another college or university will be evaluated in a manner consistent with information provided in the Transfer Student section of this Guidebook (see page 8).

10| LIBERAL ARTS CORE
2. THE WRITING INTENSIVE REQUIREMENT

Students will take a Writing-Intensive course as a prerequisite to taking WRT 205 in their fourth semester. The courses approved for satisfying this requirement are listed below. **Transfer and other credit are not accepted for the Writing Intensive Requirement except when defined in articulation agreements.**

SECTION B

THE LANGUAGE SKILLS REQUIREMENT

Students satisfy the Language Skills option of the Liberal Skills Requirement by demonstrating that they have achieved a certain level of competence in a language other than English by either:

1. completing a 4-credit language course numbered 201, or a 3- or 4-credit language course numbered 202 or higher (see Advanced Language Work under Exemptions and Alternatives on page 14); or
2. satisfying one of the requirements listed on the next page under "Exemptions and Alternatives."

Beginners can complete the language requirement with a sequence of three 4-credit courses numbered 101, 102, and 201. Each of these courses includes four hours of class and two hours of independent laboratory work in a computer or audio/visual cluster weekly.

Courses numbered 101, 102, and 201 are available on a regular basis in Ancient Greek, Arabic, Bengali, Chinese, French, German, Hebrew, Hindi/Urdu, Italian, Japanese, Kiswahili, Korean, Latin, Persian, Polish, Portuguese, Russian, Spanish and Turkish.

IN THE SEMESTER IN WHICH STUDENTS TAKE ONE OF THESE LANGUAGE COURSES THEY MAY TAKE THREE OR FOUR OTHER COURSES TO REACH A STANDARD LOAD (15-17 CREDITS).

GENERIC COURSE DESCRIPTIONS

(Catalog descriptions may vary slightly from the following, depending on the language; see entries under specific languages. The frequency of offering also may vary for different languages.)

XXX (e.g., SPA) 101 LANGUAGE I (e.g., SPANISH I) (4 credits) (only offered in the fall)
Introductory proficiency-based course that prepares students to understand, speak, read and write in culturally authentic contexts. Activities are conducted in the language (e.g., Spanish). Prerequisite. No prior experience, or admission by placement testing.

XXX 102 LANGUAGE II (4 Credits) (offered in the spring; some languages offered in the fall)
Continuing proficiency-based course that develops communicative abilities in speaking, listening, reading and writing in culturally authentic contexts. Activities are conducted in the languages. Prerequisite: Successful completion of XXX 101 or admission by placement testing.

XXX 201 LANGUAGE III (4 Credits) (offered in the spring; some languages offered in the fall)
Refines and expands previously acquired linguistic skills in culturally authentic contexts. Activities are conducted in the language. Prerequisite: Successful completion of XXX 102 or admission by placement testing.
EXEMPTIONS AND ALTERNATIVES

The following options are also available to fulfill the requirement or to receive an exemption.

Advanced Placement. Students who receive 4 credits in French or Spanish Literature by the CEEB Advanced Placement examination thereby demonstrate a competency equivalent to Syracuse University language courses numbered 201. Such students thereby satisfy the Language Skills Requirement.

Demonstrated Competence. Students who successfully complete an approved examination testing aural, reading, and composition skills meet the requirement. Petitions for an examination should be submitted to the language coordinator.

Advanced Language Work. One may be exempted from the requirement by completing with a grade of C or better any 3- or 4-credit course taught in a language other than English numbered 202 or above offered by the Department of Languages, Literatures, and Linguistics.

International Students. Students whose native language is not English may petition to have the language requirement fulfilled by their knowledge of their natural language.

Study Abroad. Programs of Syracuse University Abroad (SUA) in Chile, China, France, India, Italy, and Spain offer the same courses that are available on campus for satisfying the language requirement.

Transfer Credit. Course work completed at another college or university will be evaluated in a manner consistent with information contained in the section of this booklet addressed to Transfer Students. (See p. 8).
A student may satisfy the Quantitative Skills option of the Liberal Skills Requirement by successfully completing a First Course and a different Second Course drawn from the lists below. When planning a program, be aware that many courses in the second course list have prerequisite courses. Some courses appear on both lists.

Any student who completes a calculus course numbered 284 or higher with a grade of C or better is thereby exempt from the need to take an additional course to complete the Quantitative Skills Requirement. Calculus courses numbered 285 or higher may simultaneously be used to partially satisfy the Natural Sciences and Mathematics Divisional Requirement.

Consult the course descriptions in the back of the book for information on when credit for certain mathematic courses is disallowed.

**First Course:**
- MAT 121 Probability and Statistics for the Liberal Arts I
- MAT 183 Elements of Modern Mathematics
- MAT 193 Algebra-Infused Precalculus (to be followed by MAT 285 or MAT 295)
- MAT 194 Precalculus (to be followed by MAT 285 or MAT 295)
- MAT 221 Elementary Probability and Statistics I
- MAT 285 Life Sciences Calculus I, or
- MAT 295 Calculus I
- STT 101 Introduction to Statistics

**Second Course:** *(Note: Some of these courses have prerequisites)*
- GEO 386 Quantitative Geographical Analysis
- MAT 122 Probability and Statistics for the Liberal Arts II
- MAT 222 Elementary Probability and Statistics II
- MAT 284 Business Calculus
- MAT 285 Life Sciences Calculus I, or
- MAT 295 Calculus I
- MAT 286 Life Sciences Calculus II, or
- MAT 296 Calculus II
- MAX 201 Quantitative Methods for the Social Sciences
- PSY 252 Statistical Methods II
- *SWK 361 Foundations of Social Work Research

*Apply as Non-Arts & Sciences credit

Many students will satisfy the Quantitative Skills Requirement by taking a pair of statistics courses. Both MAT 121 and STT 101 provide introductions to statistics with emphasis on the analysis of real data sets. They do not assume any prerequisite mathematical preparation, although in MAT 121 it is desirable that students have a reasonable level of competence in high school algebra. Students who complete MAT 121 may satisfy the Quantitative Skills Requirement by choosing from among MAT 122 (the continuation of MAT 121), MAX 201 (an introduction to quantitative analysis in the study of public affairs), and SWK 361 (an introduction to quantitative methods in social work). Note that MAT 121 is a prerequisite for MAT 122.

Only students who have mastered high school algebra should contemplate any of the remaining options for satisfying the quantitative skills requirement.
FOR STUDENTS NOT MAJORING IN SCIENCES  The sequence MAT 221-222, Elementary Probability and Statistics, is designed for non-science majors and introduces basic concepts of probability and statistics and their applications. It is more mathematically rigorous than MAT 121-122.

FOR STUDENTS INTERESTED IN BUSINESS AND MANAGEMENT  Students who are interested in business and management should consider the sequence consisting of MAT 183 and 284. This introduces both discrete and continuous mathematics, and includes such topics as vectors, matrices, linear programming, probability and basic concepts of calculus.

FOR STUDENTS WITH STRONG MATHEMATICS BACKGROUNDS  Students with strong mathematics backgrounds should consider taking calculus. MAT 285 is designed for students planning to major in the social or life sciences, whereas MAT 295 is designed for engineering students and science and mathematics majors. Students with a weak background in trigonometry and analytic geometry should take one of the sequences MAT 194-285 or MAT 194-295.

EXEMPTIONS AND ALTERNATIVES

Advanced Placement.  Any student who received 4-6 credits of calculus on the basis of the CEEB Advanced Placement examination satisfies the QUANTITATIVE SKILLS requirement.

Calculus.  Any student who completes with a grade of C or better any one calculus course numbered 284 or above is exempt from the QUANTITATIVE SKILLS requirement.

Advanced Credit Exam.  Any student receiving 3 or more credits in calculus by advanced credit exam satisfies the QUANTITATIVE SKILLS requirement.

Transfer Credit.  Courses transferred to Syracuse need not be retaken for the purposes of the QUANTITATIVE SKILLS requirement. In very exceptional circumstances, e.g. courses completed at a non-accredited institution, students may petition to take a competency examination in any of the courses offered by the Mathematics Department. Students who pass such an examination are deemed to have passed the corresponding course for the purposes of the requirement. Petitions for such examinations should be submitted to the chair of the Mathematics Department.

PLACEMENT

To determine the appropriate course for you:
1.  Take the Mathematics Placement Test as indicated in the first term enrollment selection information provided.
2.  Consult the descriptions of mathematics courses and discuss your objectives with your advisor.
3.  Follow the placement advice of the Mathematics Department on the basis of your placement test.

Transfer Students:  If you are planning to take any mathematics course numbered 121 or above and have not been granted transfer credit for any such course, you should take the Mathematics Placement Test and consult with your advisor.
PART II
THE DIVISIONAL PERSPECTIVES REQUIREMENT

The requirement that students take four courses in each of the three curricular divisions of the College — the Humanities, Social Science and Natural Science and Mathematics divisions — is designed to promote goals fundamental to a liberal education.

* To enable students to develop broad perspectives informed by the best of scholarship and research from across the fields of liberal inquiry.

* To provide a critical understanding of various modes of intellectual inquiry and of how they differ, complement and compete with each other.

* To enable students to explore the opportunities for upper division studies — including fields in which they might major or minor — so that their subsequent choices will be informed ones.

To satisfy the Divisional Perspectives Requirement:

1. A student must take four, 3- or 4-credit courses in each of the three curricular divisions of the College of Arts and Sciences — that is, in the Humanities, the Natural Sciences and Mathematics, and the Social Sciences divisions.

2. In each division, two of the courses must constitute an approved sequence. Courses in a sequence may be taken in either order unless one is prerequisite to the other.*

3. Of the twelve courses used to satisfy the divisional requirement, no more than three courses may be taken from a single department or program (even if the courses of the department or program are in more than one division), with the exception of 3-credit HNR courses offered by the Renée Crown University Program. Any course cross listed is considered to belong to each of the departments in the cross listing. Therefore it counts as one of the maximum of three allowed from a single department to fulfill the divisional distributional requirement.

4. In each division, no more than one course may be selected from schools and colleges outside the College of Arts and Sciences.

5. In the Natural Science and Mathematics Division, at least one laboratory course must be included.

* In the lists that follow, courses connected by a hyphen ("-";) or otherwise stated constitute a sequence.
THE HUMANITIES DIVISION
--- 4 courses needed ---

The Humanities Division encompasses the history, theory, analysis and criticism of language, literature and other texts, religion, art, and music; and the examination of fundamental questions arising in the human search for values, knowledge, purpose, and meaning. These are central concerns of the departments or programs of African American Studies; English; Languages, Literatures and Linguistics; Art and Music Histories; Philosophy; Religion and Women's and Gender Studies. Hence, most courses satisfying the Humanities Division requirements come from these departments and programs.

THE HUMANITIES LIST

Students must take at least four courses from the following list, including a two-course sequence (indicated by hyphens), to complete the requirement for four courses in this division. No more than three courses may be taken from a single department or program (even if the courses of the department or program are in more than one division).

Students are required to take two courses from the approved list that follows. These courses are designed to encourage students to think critically about social and ethical issues that are relevant to contemporary life. They are from a variety of departments and programs and will demonstrate the relevance of study in the liberal arts to gaining critical perspectives on aspects of contemporary society. Many of these courses may simultaneously be used to partially satisfy other Liberal Arts Core requirements.

Most of the courses that satisfy the Critical Reflections on Ethical and Social Issues Requirement promote the University’s core value of diversity. They help students to reflect on the diversity of peoples, social groups and cultures that surround them in contemporary life. Many other courses in the Liberal Arts Curriculum outside those on the list of Critical Reflections courses also serve this goal.
