

**Roger Hahn**  
**Complete List of Publications**

Mekala, S.; Hahn, R. A Scalable, Nonenzymatic Synthesis of Highly Stereopure Difunctional C4 Secondary methyl Linchpin Synthons, *J. Org. Chem.* **2015**, *80*, 1610-1617.

Mekala, S.; Hahn, R. Process intensification-assisted conversion of alpha, omega-alkanediols to dibromides. *Tetrahedron Letters*, **2015**, *56*, 630-632.

Gries, R.; Schaefer, P.W.; Hahn, R.; Khaskin, G.; Ramaseshiah, G.; Singh, B.; Hehar, G.K.; Gries, G. Sex Pheromone Components of Indian Gypsy Moth, *Lymantria Obfuscata*; *J. Chem. Ecol.* **2007**, *33*, 1774-1786.

Alexander, J.S.; Zuniga, M.; Guino-o, T.; Hahn, R.; Ruhlandt-Senge, K. The Organometallic Chemistry of the Alkaline Earth Metals. Chapter in *The Encyclopedia of Inorganic Chemistry*, Wiley, 2005.

Gries, R.; Khaskin, G.; Schaefer, P.W.; Hahn, R.; Gotoh, T.; Gries, G. (7R,8S)-cis-7,8-Epoxy-2-methyloctadec-17-ene: A Novel Trace Component from the Sex Pheromone Gland of Gypsy Moth, *Lymantria Dispar*. *J. Chem. Ecol.* **2005**, *31*, 49-62.

Khrimian, A.; Oliver, J. E.; Hahn, R. C.; Dees, N. H.; White, J.; Mastro, V. C. Improved Synthesis and Deployment of (2S,3R)-2-(2Z,5Z-Octadienyl)-3-nonyloxirane, a Pheromone of the Pink Moth, *Lymantria mathura*. *J. Agric. Food Chem.* **2004**, *52(10)*, 2890-2895.

Gries, G.; Schaefer, P. W.; Khaskin, G.; Hahn, R.; Gries, R.; Chao, J.-T. Sex Pheromone Components of Casuarina Moth, *Lymantria Xylina*. *J. Chem. Ecol.* **1999**, *25*, 2535-2545.

Hahn, R. C. Moving Disc Filtration: Low-Temperature, Inert-Atmosphere Removal of Solvent from Low-Melting Crystals in an Ordinary, One-Neck Flask. *Aldrichim. Acta* **1998**, *31(3)*, 75.

Hahn, R. C. Conversion of an alkyl chloride to a bromide (or vice versa) by homogeneous nucleophile exchange. *J. Chem. Educ.* **1997**, *74(7)*, 836-838.

Hahn, R. C.; Cook, F. B.; Zhu, L. Convenient C4 and C6 Chiral Difunctional Secondary Methyl Building Blocks; Total Synthesis of Natural Vitamin E in Six Linear Steps. Abstracts, 34th National Organic Symposium, Williamsburg, VA, Poster #25, Jun 11-15, **1995**.

Hahn, R. C. Photochemical Key Steps in Organic Synthesis: An Experimental Course Book Jochen Mattay and Axel G. Griesbeck, Editors. *J. Chem. Educ.* **1995**, *72(11)*, A229.

Hahn, R. C.; Tompkins, J. One-pot, one- and multi-carbon homologation of alkyl halides: reaction of Grignard reagents with chloriodomethane. *Tetrahedron Lett.* **1990**, *31(7)*, 937-940.

Hahn, R. C.; Tompkins, J. Homogeneous nucleophile exchange. 2. Silver-free, direct synthesis of primary alkyl sulfonates from alkyl halides. *J. Org. Chem.* **1988**, *53(24)*, 5783-5785.

Hahn, R. C. Homogeneous nucleophile exchange. 1. Simple, high-yield synthesis of some heterodihalides. *J. Org. Chem.* **1988**, *53*(6), 1331-1333.

Domelsmith, L. N.; Mollere, P. D.; Houk, K. N.; Hahn, R. C.; Johnson, R. P. Photoelectron and charge-transfer spectra of benzobicycloalkenes. Relationships between through-space interactions and reactivity. *J. Am. Chem. Soc.* **1978**, *100*(10), 2959-2965.

Johnson, R. P.; Exarchou, A.; Jefford, C. W.; Hahn, R. C. A convenient large-scale preparation of benzobarrelene. *J. Org. Chem.* **1977**, *42*(23), 3758-3759.

Hahn, R. C.; Johnson, R. P. Effects of a nitro substituent on di- $\pi$ -methane rearrangements of benzonorbornadiene and its [3.2.1] homolog. *J. Am. Chem. Soc.* **1977**, *99*(5), 1508-1513.

Galley, M. W.; Hahn, R. C. Effects of a remote double bond or cyclopropane ring on electrophilic aromatic substitution. *J. Org. Chem.* **1976**, *41*(11), 2006-2009.

Hahn, R. C.; Shosenji, H.; Strack, D. L. Some recent developments in ipso nitration ACS Symposium Series 1976, 22(Ind. Lab. Nitrations, Symp., 1975), 95-102.

Hahn, R. C.; Johnson, R. P. Substituent and multiplicity effects on rearrangements of some benzo[7,8]bicyclo[4.2.1]nona-2,4,7-trienes. *J. Am. Chem. Soc.* **1975**, *97*(1), 212-213.

Galley, M. W.; Hahn, R. C. Ipso nitration. III. Steric effects on extent and consequences. *J. Am. Chem. Soc.* **1974**, *96*(13), 4337-4339.

Hahn, R. C.; Strack, D. L. Ipso nitration. II. Novel products and true positional selectivities in nitration of *p*-cymene. *J. Am. Chem. Soc.* **1974**, *96*(13), 4335-4337.

Hahn, R. C.; Kurtz, D. W. Cyclopropane in photochemistry. II. Photochemistry of 4-cyclopropyl-4-phenylcyclohexenone. *J. Am. Chem. Soc.* **1973**, *95*(20), 6723-6727.

Hahn, R. C.; Groen, M. B. Cyclopropylarene chemistry. V. Ipso nitration of an unsymmetrical arene. Selective adduct formation and multistep nitro group migrations. *J. Am. Chem. Soc.* **1973**, *95*(18), 6128-6129.

Elling, G. R.; Hahn, R. C.; Schwab, G. Cyclopropylarene chemistry. IV. Homoketenyl cations in a Friedel-Crafts acylation. *J. Am. Chem. Soc.* **1973**, *95*(17), 5659-5662.

Hahn, R. C.; Howard, P. H. Cyclopropane anisotropy. Effects of systematically varied cyclopropane geometries in aromatic systems. *J. Am. Chem. Soc.* **1972**, *94*(9), 3143-3148.

Hahn, R. C.; Howard, P. H.; Lorenzo, G. A. Cyclopropane-arene interactions. II. Intramolecular charge transfer and geometry effects cyclopropyl nitroaromatic systems. *J. Am. Chem. Soc.* **1971**, *93*(22), 5816-5820.

Hahn, R. C.; Howard, P. H.; Kong, S.-M.; Lorenzo, G. A.; Miller, N. L. Cyclopropyl aromatic chemistry. I. Ultraviolet spectra of certain cyclopropyl aromatic systems. *J. Am. Chem. Soc.* **1969**, *91*(13), 3558-3566.

Hahn, R. C.; Rothman, L. J. Photochemistry of benzo[6.7]bicyclo[3.2.1]octa-2,6-diene. *J. Am. Chem. Soc.* **1969**, *91*(9), 2409-2410.

Hahn, R. C.; Corbin, T. F.; Shechter, H. Electrical effects of cycloalkyl groups. *J. Am. Chem. Soc.* **1968**, *90*(13), 3404-3415.

Zimmerman, H. E.; Hahn, R. C.; Morrison, H.; Wani, M. C. Mechanistic and exploratory photochemistry. XII. Characterization of the reactivity of the  $\beta$ -carbon in the triplet excited state of  $\alpha,\beta$ -unsaturated ketones. *J. Am. Chem. Soc.* **1965**, *87*(5), 1138-1140.

Corbin, T. F.; Hahn, R. C.; Shechter, H. Cyclopropylbenzene. *Org. Synth.* **1964**, *44*, 30-33.
