## **RESEARCH**

### **Research Areas**

Main areas: Syntax, semantics and (bilingual) language acquisition.

Main topics: Nominal expressions in Romance languages. Parallelism between nominal and clausal structure. Movement in the nominal domain. Locality. Cliticization processes. Ellipsis. Attributive Adjectives.

### **Publications**

#### **Books**

Under contract      *Economy in Language Acquisition: the emergence of nominal expressions in Spanish-English early bilinguals*. Studies in Hispanic and Lusophone Linguistics (Book Series), John Benjamins Publishing Company.  
[Book contract dated March 2014]

2010                  *Locality Domains in the Spanish DP*. Studies in Natural Language and Linguistic Theory (Book Series) 79, Springer Publishing Company.

2006                  *Instructor's Resource Manual to Accompany 'Mosaicos: Spanish as a World Language (4 ed.)'*. Prentice-Hall.

[Responsible for the creation of 5 syllabi (designed for different semester distribution and for intensive courses), along with their lesson plans and additional activities, to serve as aid to teachers adopting *Mosaicos: Spanish as a World Language (4 ed.)*. My contribution is 368 pp. and forms part of an instructor's resource manual consisting of more than 1,000 pages. This material is available upon request]

2003                  *On the structure of DPs*. Revised UConn PhD dissertation. Distributed by MITWPL, Linguistics, MIT, Cambridge, Mass.

## Databases

- 2012 Cross-sectional Database (SU's IRB Protocol #: 11-269): Database of elicited production of 12 children acquiring bilingual English-Spanish (age range 2;6-4;0). Children's nominal expressions production data were collected in Syracuse, NY and Houston, TX. Anonymized digital audio files are available to interested researchers; preliminary orthographical transcripts of all (24) sessions are available upon request.
- 2010 Ticio database. Longitudinal database of spontaneous production of a child acquiring simultaneously English and Spanish from birth (age range 1;6-2;4), publicly available in CHILDES.  
<http://childes.psy.cmu.edu/browser/index.php?url=Biling/Ticio/>
- In progress SASEBIS (Syracuse Area Spanish-English Bilinguals Study) database. (SU's IRB Protocol #: 11-188): Longitudinal database of spontaneous production of children acquiring simultaneously English and Spanish from birth (age range 1;6-3;6). This database currently consists of 3 subjects who completed all the scheduled sessions, 2 additional subjects are being recruited to complete the initial protocol. Preliminary orthographical transcripts of all recorded subjects, 71 sessions, are available upon request. Transcripts are being coded with CHAT to upload them to CHILDES.
