Let's get started!

How to Login to Handshake

Go to: syr.joinhandshake.com

Enter your Syracuse University Username and Password (same as MySlice)

Complete your Profile

Some of your information will already be in your Handshake profile.

1. Check to be sure all pre-loaded information is correct.
2. If you find an error in any of your profile data, you have the ability to edit your profile.

Manage your Privacy Settings

Decide whether to make your profile **public** or **private**.

A **public** profile means that most information in the profile can be seen by any employer on Handshake and other students.

If you make your profile **private** it can only be seen by you. You can **switch** your privacy status at any time, from private to public or from public to private.

The more information you add to your profile, the easier it will be for employers to find you and to make good decisions about whether or not you might be a good fit for their job postings.

Take Handshake for a Spin

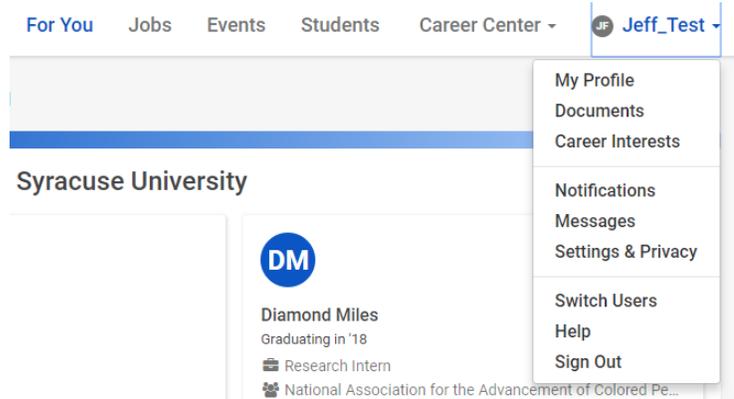

Use the landing page, top search bar and filters to look for companies and jobs you're interested in learning more about or applying to. Remember, you can always save your searches in Handshake so finding relevant employers and jobs will be easy.

Follow some jobs and employers you're interested in. When you follow an employer or a job, you can begin filtering based on companies you follow.

Uploading a Document

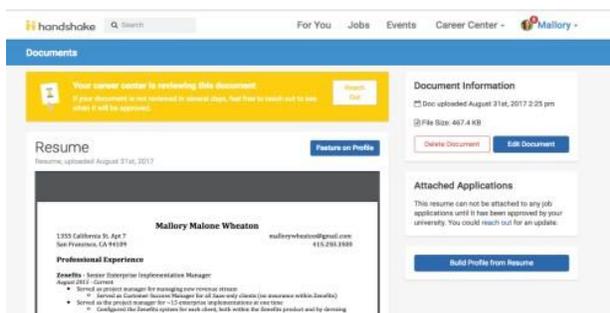

To upload a new document:

1. Click **Your Name** on the left-hand navigation bar.
2. Click the **Documents** tab in the dropdown

3. Click **Add Document** in the lower left corner of Your Documents.
4. Complete the New Document form. Uploaded documents can be resumes, cover letters, transcripts, or work samples.
 - Files should be in .PDF, .DOC, or .DOCX format. **The preferred format is .PDF.** Handshake will automatically attempt to convert any .DOC or .DOCX format into .PDF. You will need to review and approve the converted .PDF version of your document prior to using it apply for a job.
 - If you would like your document to be able to be found and viewed by employers on Handshake, check the **Public?** checkbox. If you want to keep the document part of your private document library, or if you're uploading it for use in a particular job application, the checkbox should remain unmarked.

You'll now be able to see your document in **Your Documents** and you will have the ability to build your profile from this document.
